TRINITY
GRAMMAR SCHOOL

About

Trinity Grammar School is a leading independent Anglican school for boys from Pre-Kindergarten to Year 12. Centrally located in Sydney's Inner West, we celebrate ethnic, religious, and geographic diversity.

Ethos

Informed by our Christian ethos, at Trinity every boy is individually known, cared for and guided to grow in mind, body and spirit.

Mind: Trinity is a learning community. The growth and development of the mind is a crucial concern. We use the concept of the 'mind' to speak about the learning that comes from the formal curriculum and the classroom.

Body: Trinity is a community of movement. Students here move in a myriad of ways: on sports fields, on stage dramatically and musically, across chess boards, through water, in choirs, cadets and debates. Doing so, they develop discipline, resilience, healthy habits, and teamwork. Every student grows through this shared experience.

Spirit: Trinity is a community of Christian faith. What makes Trinity tick, what sets it heart to beat is a humble response to God. In this humility of spirit, our boys are invited to grow as men of character and hope.

Trinity offers:

Challenge: There are a breadth of challenging educational opportunities available to Trinitarians. We require and encourage them to lean into the challenges that they face, and to seek to overcome obstacles.

Growth: The School celebrates excellence in performance, but growth is the more important lens through which we look.

Supportive, caring community: Trinity strives to be a community that considers, includes, and cares for others. In partnership with families, we aim to ensure our students are adequately and appropriately supported, at whatever stage of their development, to give them every chance of experiencing success.

Character: Our world needs men who are decent and trustworthy, and our School aims to play our role in shaping them. The true value of a Trinity education is seen in the character of our men in the years long after their graduation.

Qualification Pathways

There are several patterns of study and a wide range of subjects available to Trinity students in Years 11 to 12, depending on their post school goals.

- **Higher School Certificate (HSC)** – the traditional pre-tertiary credential for students in New South Wales. All Australian universities accept this credential.
- **International Baccalaureate Diploma (IB Diploma)** – Internationally recognised, the IB Diploma is an academically challenging and balanced programme for students in Years 11 and 12, preparing them for success at university and beyond.
- **Vocational Education and Training (VET)** – Trinity offers a small number of Vocational Education and Training courses in Stage 6. As they acquire a range of technical, practical, personal, and organisational abilities, students develop industry-recognised skills for the working world.

Co-Curricular:

Trinity offers unparalleled creative arts, music, cadets and sports programmes. Trinity is one of only nine schools globally to be accredited as a World Academy of Sport Athlete Friendly Education Centre. Sport is compulsory for all students from years 3 to 12.
